EXAMINER'S AMENDMENT

1. The numbering of claims is not in accordance with 37 CFR 1.126 which requires the original numbering of the claims to be preserved throughout the prosecution. When claims are canceled, the remaining claims must not be renumbered. When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not).

Misnumbered claims 32 and 32 been renumbered 32 and 33.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. David Schnapf on June 2, 2005.

The application has been amended as follows:

In the Claims:

In line 2 of claim 23, "removes" has been changed to ---remove---.

In line 2 of claim 33, "low energy" has been deleted.

3. The following is an examiner's statement of reasons for allowance: Applicant has amended independent claims 7 and 15 to incorporate the limitation that the second scrubbing step includes contacting the gas stream with a second scrubbing liquid, wherein the coalesced

drops of the first scrubbing step are disposed of, and wherein the second scrubbing liquid is recycled in the air pollution control system, which is not disclosed in the prior art of record.

With respect to independent claims 1, 9, 16 and 23, the examiner agrees with applicant's arguments that the prior art of record fails to disclose a method or system wherein large particles are removed by spraying liquid droplets having a mean mass diameter in the range of about 200-750 microns, which is shown to be a critical range in the graph of figure 6.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The additional references listed on the attached PTO-892 form disclose venturi scrubbers.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Frank M. Lawrence whose telephone number is 571-272-1161. The examiner can normally be reached on Mon-Thurs 7:30-6:00.
